Subject: Re: 2.5.6 and 2.6.6 - Delta Effects Section Completion??

You are correct, just working on transferring critical habitat over to a "new" 2.6 section that we'll meld into your master document.

Hi Delta Section Authors -

I just wanted to touch base with all you in one place to make sure I understand who is drafting what and the status on those sections. I need to get all of these components compiled as soon as possible. The following is my understanding of who is responsible for what -

Jeff - bulk of the section (mostly complete)

Brittany (Complete) - Clifton Court Aquatic Weed Removal

Joe (All Complete) - Predator Removal (CO2 Injection)
Tracy Fish Collection Facility Improvements
Skinner Fish Facility Improvements
Predator Hot Spot Removal
Tidal Habitat Restoration 8,000 Acres
Delta Fish Species Conservation Hatchery

Kristin - Suisun March
Conservation Measures, except for those being done by Joe

If I have missed anyone on this email that is working on this section, please let me know.

Please also confirm the status of your section(s) above and if I have missed anything you are working on.

Thank you!
Susan
