Thanks, Jeff. I hadn't checked the Stan tables yet so was sitting on it...but of course now I realized that Brian's tables are for winter-run so obviously no Stan or SJ tables relevant!

Hi Brian,

A quick heads up. It does not appear that Kristin's effects table for SR was added into the Delta table. I have spoken with Norma, and we are working on fixing that. Her tables are in the share drive at:  
R:\Draft BiOp\2\_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables\Delta I&S tables from KB for species SR nh 4.9.2019  
should you need them.

Hi Norma,

Please combine the attached spring-run tables into one table in a standalone MS word document? The top to bottom order should be Shasta, Trinity, Delta, Stanislaus, San Joaquin.

Division Leads,

Please make sure any revisions you already made, but are not reflected in the attached versions, or plan to make later on get incorporated into the combined table which will be in the I&S draft. Let me know if you have revisions to make.

(fyi, all the tables are saved here: R:\Draft BiOp\2\_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables)

Thanks,  
Brian
