Subject: ROC on LTO Delta Division effects analysis

Jeff,

My track changes to the Delta Division effects analysis are saved in the file "2.5 and 2.6 Delta V3--GY in the ROCONBA". Please scan over all of my track changes, and especially the comment bubbles, in order to get an idea of the types and extent of comments that I have. Then, "reply all" with an idea of how long it will take you to address all of the track changes. I need the revised section by COB Tuesday, April 23. If it doesn't look like you'll be able to meet that, then let's talk.

As you work through my track changes, please make sure track changes is on the whole time, then:
-- Accept all edits and deletions that you agree with (including others, like Kristin and yourself).
-- Don't accept any edits or deletions that you disagree with, but insert a comment briefly explaining why.
-- If you incorporate a comment, reply to the comment with 'done.'
-- If you have a long explanation to a given comment, think about including that explanation into the text of the document, as my comment and your response won't be included.

Thanks.

-Garwin-
