Master version=2.5 and 2.6 Delta V9.doc in R:\Draft BiOp\2\_ESA\2.5-2.6 Effects of the Action\Delta Division

This was the V8\_track changes doc and Jeff will transfer over Rosalie's edits/comments and do additional edits as needed. I will also be in there making some edits; will coordinate with Jeff on timing. As advised in Naseem's e-mail yesterday, PLEASE WORK IN THE DOC ON THE ROCON DRIVE! This will maintain a single master doc and will also let others know that someone is currently making edits.

Jeff and team,

We received comments back from Rosalie on the Delta Division effects section (and figures and tables files), which I placed in the ROCON drive.

- Please coordinate with Barb regarding which version to use as the base/master
- Please address all outstanding comments, and Rosalie's track changes, so in the end, we will have a clean document with only comment bubbles for references.
- Barb may be adding some text, so make sure to coordinate with the team to reduce the potential for version control issues.
- Note that I have been sending out task e-mails individually, and you may have overlapping tasks. If you need help with workload or priorities, Howard, Cathy, and/or I will be available to help.

Susan--The figures and tables will need to be relabeled given the new ones that have been inserted into the main section.

Thanks!

-Garwin-
