**Attachments:** STARS for ROC on LTO effects analysis.docx; Appendix 1. Daily survival by year.pdf; Appendix 4. Daily interior Delta routing by year.pdf; Appendix 2. Daily travel time by year.pdf; Appendix 3. Daily routing by year.pdf

Hi Cathy and Jeff,

Please find attached our draft report of using the STARS model to evaluate the proposed action under the reinitiation of consultation of the coordinated longterm operations of the CVP and SWP. The report is being submitted today for peer review. It will take some time before reviews are received and the final report is released. In the meantime, I will incorporate any comments or edits you have into the final version. I will forward you the link to the final report, once available.

Let me know if you have any questions.

Cheers,

Russ
