Subject: Re: delta take

thanks Jeff,
reminder to fill in the table, the last column for amount/extent (something concise and referring to discussion if appropriate)
R:\Draft BiOp\2_ESA\2.11 ITS (V3)

will be good as a check on your end, see if anything is included in the table that you haven't included - or if you included something not in the table, etc. I think we talked about that your discussions/analysis may be pulled apart for one row of table, which is fine, we'll just need to indicate in the table.

So we have several people that will be updating the table today and tomorrow - hopefully that works for you as well?

I think they are working off line then will add them to the table.

Hey Jeff,
did you save your draft take somewhere?
We'd like to check it out (to see what you are already covering/describing).

Thanks,
