Monitoring Programs from Appendix C

Key

- * = real-time monitoring
- ** = adaptive management

Italics = maybe not need take coverage?

Clear Creek

- *Adult Spring Chinook Escapement Monitoring in Clear Creek: video weir; snorkel surveys; life history sample collection (carcass)
- Juvenile Spring-Run and Steelhead Production Monitoring in Clear Creek: rotary screw traps
- Adult Steelhead and Late-fall Chinook Escapement Monitoring in Clear Creek: video weir and kayak redd counts

Sacramento River

- *Red Bluff Diversion Dam Rotary Screw Trap Juvenile Monitoring Project: juvenile estimates for all Chinook runs; lamprey, green sturgeon. Section 10- USFWS
- *Juvenile Salmon Delta Emigration Real Time Monitoring: Sacramento and Chipps Trawl for salmonids. Section 10- USFWS. Listed as compliance for OCAP 2009 in IEP Workplan
- *Lower Sacramento River Juvenile Salmon and Steelhead Monitoring Project: rotary screw trapping at Knights landing. Section 10- CDFW. Listed as compliance for OCAP 2009 in IEP Workplan
- *Winter-run Chinook Salmon Escapement Monitoring: Carcass surveys
- Spring, Fall, and Late-fall Chinook Salmon and Steelhead Escapement Monitoring in the Upper Sacramento River Basin: carcass surveys, aerial and wading redd surveys; video weirs, snorkel surveys in mainstem and major tributaries. Life history sample collection (carcass)
- **Upper Sacramento River Habitat Restoration Monitoring Project: project effectiveness surveys at habitat improvement projects (snorkel; video; electrofish; seine)

American

 American River Chinook Salmon and Steelhead Escapement Estimation: carcass surveys, aerial and wading redd surveys

Stanislaus

• Stanislaus River Chinook Salmon and Steelhead Escapement Estimation: carcass surveys, aerial and wading redd surveys

San Joaquin

Mossdale Spring Trawl: trawl for juvenile steelhead and Chinook salmon. Section 10- USFWS.
 Listed as compliance for OCAP 2009 in IEP Workplan

Hatchery

 Genetic Analyses of California Salmonid Populations: Parentage Based Tagging (PBT) of salmonids in California Hatchery Programs.

Delta

- *Fish Salvage Operations: Tracy and Skinner: daily salvage and loss; operational conditions, tissue sample collection. Salvage take covered under OCAP 2009 ITS, tissue collection covered under Section 10- BOR. Included in IEP Workplan
- Delta Juvenile Salmon Monitoring (DJFMP seines and trawls) Section 10- USFWS. Salmonid components listed as compliance for OCAP 2009 in IEP Workplan
- Smelt
- *Delta Flow Measurement and Database Management
- Environmental Monitoring Program
- *Enhanced Delta Smelt Monitoring
- Fall Midwater Trawl: Delta, Deep water shipping channel, and San Pablo Bay- Section 10- CDFW.
 Included in IEP Workplan
- 20-mm Survey monitoring to determine distribution and relative abundance of Delta Smelt and Longfin smelt- Section 10- CDFW. Included in IEP Workplan
- Spring Kodiak Trawl- Section 10- CDFW. Included in IEP Workplan
- Estuarine and Marine Fish Abundance and Distribution Survey (Bay Study)- Section 10- CDFW. Included in IEP Workplan
- Smelt Larva Survey (SLS)- Section 10- CDFW. Included in IEP Workplan
- Summer Townet Survey- Section 10- CDFW. Included in IEP Workplan
- **Tidal Wetland Monitoring Studies- Section 10?- CDFW. Listed as compliance for OCAP 2009 in IEP Workplan
- **Bay Salinity Monitoring- no take coverage necessary-USGS. Included in IEP Workplan
- **Upper Estuary Zooplankton Sampling- Section 10?- CDFW. Included in IEP Workplan

Multi Division

- *Genetic Identification of Salmonids and Smelt to Inform Central Valley Project Operations and Bay-Delta Monitoring: For verifying winter and spring run. Sampling at fish facilities and monitoring programs to help with juvenile estimates; and larval fish ID at fish facilities. Salvage take covered under OCAP 2009 ITS, tissue collection covered under Section 10- BOR. Included in IEP Workplan
- *Operation of Thermograph Stations- no take coverage necessary-USGS. Included in IEP Workplan
- Enhanced Acoustic Tagging, Analysis, and Real-time Monitoring: Sacramento River through delta. Salmonids and sturgeon. Survival. Mention of real-time. Some take under USFWS Section 10 (Red Bluff Office)

Gaps in Monitoring

- Funding or studies beyond collection of data (ototlith/scale collection). Genetics may be covered for all monitoring.
- Operation of Clear Creek segregation weir (to separate fall and spring run Chinook salmon during spawning)
- Inclusion of steelhead at Red Bluff Diversion Dam screw trapping- O. Mykiss counts are reported monthly
- Inclusion of green sturgeon at Red Bluff Diversion Dam screw trapping
- Clear Creek habitat surveys
- Adult sturgeon population estimates- Section 10- CDFW. Included in IEP Workplan
