Subject: Re: Take tables
Attachments: ITS Delta Actions 6-14-19 (insert).docx

Waiting on Barb to use her new numbers in the SWP/CVP salvage portion. I finished writing up the section and have tables and a few numbers in text that will need to be updated with her new numbers. See attached version with the salvage section with comment bubbles where changes will occur.

Hi all,

Please take a look at Jeff's entries in the tables (Delta sections) - the amount/extent column needs to include: "Ecological surrogate is... " - many will be habitat area (define an actual habitat area/amount), or they could be temperatures, etc - what is the metric we would be gauging whether it is exceeded?

I added a few comments in the table so far, but closed it for now if some of you can jump in and add the surrogate language.

Jeff - can I add your sections soon - even if the salvage section is still underway?
