Subject: FYI - Barry's Hill meetings next week re: CA water + other topics

Hi Chris,

Next week, Barry will be in town for several meetings, including the Puget Sound Day of the Hill. While he's in town, he's planning to meet with a few offices to discuss the current situation on California water operations and updates on the CVP BiOp (he won't be able to say much, but he wants to look responsive as these offices are tracking the issue very closely). He's also looking to meet with a few offices to give an update on Southern Resident killer whale recovery and a few consultation related topics. Right now, he's confirmed for the following meetings (member level unless noted otherwise):

- Rep. Harder (D-CA/10th) re: CA water
- Rep. Huffman (D-CA/2nd) and HNR WOW majority staff re: CA water and CVP BiOp - Stu will likely attend this one as well
- Rep. Heck (D-WA/10th) re: SRKW and other topics
- Rep. Cox (D-CA/21st) re: CA water (staff only)
- Sen. Feinstein (D-CA) re: CA water (staff only)
- Trying for meetings with Rep. Kilmer and Rep. Larsen (both from WA) re: SRKW and other topics and possibly HNRC WOW minority staff re: CA water

Given all of the ongoing conversations on CA water, I wanted to make sure that these meetings were on your radar. Please let me know if you have any questions or concerns.

Thanks,
Sam G.
