Subject: Re: Plan 11am Follow up CA Bi-Op Call w/NOAA

Materials for the 11am tomorrow are attached. A slide deck and an updated schedule with some of the upcoming meetings and milestones we are facing.

Hi Chris and Sam -

For the meeting tomorrow morning at 11am with NOAA to follow up on CA BiOps, WCRO plans to send us an updated powerpoint that they are walking through with Reclamation today. They said that this should work to facilitate tomorrow's conversation. We are not planning to have any other materials. I understand there are lots of coordination calls occurring right now, so our update will be close to realtime. Barry will take the lead.

Lindsey - I will share it with you when I have it.

Thanks and please let me know if there are questions,
Alesia
