**Subject:** Methods for ROC

Here are links to two tables that we commented on back when determining method to be used for CWF (or BDCP at the time). We went through the exercise of identifying what was being proposed to be used for remand vs BDCP, and why. This may be useful for comparing to the existing list (and justifying why some things should fall off the list).

For the Delta:

M:\BDCP\Analyses\BA\_BiOp\_Methods\MethodsTables\Draft BDCP\_Sxn7\_Methods\_NMFS\_Delta\_notes and ICF recommendations v2 NMFS.docx

For Upper Sac and American:

M:\BDCP\Analyses\BA\_BiOp\_Methods\MethodsTables\Draft BDCP\_Sxn7\_Methods\_NMFS\_Upstream\_notes and ICF recommendationsv2 NMFS.docx
