Katrina,

See attached for the NMFS 2004 water ops BiOp that hopefully includes the detailed consultation history that you're looking for.

You may have already looked at the Consultation History in the 2009 BiOp (in addition to what's in the 2008 BA), but if not, it might have some extra stuff (I didn't do the comparison). That consultation history section starts on p. 31; BiOp at:
https://www.westcoast.fisheries.noaa.gov/publications/Central_Valley/Water%20Operations/Operations,%20Criteria%20and%20Plan/nmfs_biological_and_conference_opinion_on_the_long-term_operations_of_the_cvp_and_swp.pdf

It incorporates by ref the pre-2004 consultation history; don't currently have easy access to the 2004 BiOp and a quick google search didn't turn it up online but perhaps you have that handy...

Hi Garwin, Barb -

I am trying to pull together the long-term consultation history of the LTO / OCAP, and have some gaps around 2000. We've found the attached BA from 2001, was there an associated BO you might have? Also it

looks like we did some interim consultations in the late 90's - there is another 1998-2000 BA for spring-run and steelhead, do you have the associated BO?

Perhaps you know a few more consultations in here to fill in some gaps. Attached - the blue / green table - is the history as we currently have it in case you'd like to help me fill it in. I'm not trying to pull together every related consultation, just the ones on CVP / SWP operations as a whole for the fish species.

Thank you,

Katrina Harrison
