So in the 2.5 and 2.6 American Effects V7-6.2.19 - Peer Review file, one of the figures is still not showing in the Word version. It is on page 9 and is Figure 2.5.4-2 Lower American River water temperature during March, April, and May from 1999 through 2018 represented as the mean of the daily average at the Watt Avenue gage.

Otherwise all other files are fine and have been pdfed.

Best,

Michelle -- Sending a series of e-mails to get you all our Word files (sending a series to manage attachment size).

E-mails 1 (this e-mail) and E-mail 2 have all the files you asked for. If you can prioritize those then I think we can use all the others as-is.

Michelle and John --

All set...with minor help (it's late...):

1. I accidentally uploaded the charge to the "Section 2.5 and 2.5" folder. I marked it for deletion, so you can delete that. I was so excited to get my pretty pdf up there....

I uploaded it again into the "root" folder.

2. Could you put 2.5.10 Climate Change....docx into the "Section 2.5 and 2.6" directory?

Talk to you soon!

Thanks Cathy! I was able to see all the files (and I deleted the old version of 2.5.9) and I have uploaded them to the reviewer's FTP sites. I will do a more thorough QC of the files in the

morning and will be on the lookup for those additional files tomorrow morning as well. Good luck wrapping the document up, and we'll talk to you at noon tomorrow!

Michelle --

The large majority of documents have been uploaded to the server. I've attached the (still-draft-near-final) charge for you because it has the listing of documents at the end. What I know is still missing and will upload later tonight is:

1. Final Charge to Panel
2. Note to Reviewers on Ongoing Discussions
3. Section 2.5 and 2.6 for Upper Sacramento/Shasta Division
4. One "additional reference" dealing with temperature

Item 3 will probably be the last items uploaded since it is the largest and I'm still working on it!

I had to upload a revised version of Section 2.9 and found that I was not able to delete the previous version. I was however able to rename it, so I did that, with a note that it be removed or deleted. So please check for that.

But otherwise we are good to go. Please email or call my cell anytime if you have any questions!

Thanks!

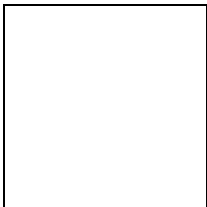

Cathy
