Can you make another request for the data? The figures are really great, but one potential modification would be to use a smaller range of years, so individual years could be identified.

Cool! I was worried these weren't coming at all. I'll take a look later tonight or tomorrow. Got to go pick up the baby now.

I know you don't have time for these now, but here they are! We can work out how/who gets them into your sections, if not you.

Hello,

I've attached the revisions to the sheets. I've also included the captions and a paragraph that also needed updating. Let me know if there is anything else.

I may process the data differently so I also attached the notes that I keep for the data acquisition and processing.

Sorry for the delay. Let me know if you have any questions.
