Joe, How about you send the steelhead I&S to Rosalie and I will catch it later? Why don't you have a look at Garwin's comments and then give us your take on how much time it will take to address them? I don't want to lose progress on I&S.

Howard,

I'm working on Jeff's revisions for the steelhead I&S critical habitat section now. The overall steelhead I&S was going to you for review before Rosalie.

Question 1: do you want to bypass your review and send it directly to Rosalie?

I'm talking to Rosalie about her comments to the green sturgeon I&S Monday.

Question 2: do you want me to start working on Garwin's comments to the American River effects before I move onto Rosalie's I&S comments?

Thanks

Joe

Joe,

Considering that Rosalie has your I&S sections, can you please address Garwin's comments on the American River? We are trying to play some schedule catch-up and I would like to get this section to Maria for her review by next Friday April 4-26. Garwin will need to clear before it goes to Maria, so if you can get something back to Garwin by COB next Tuesday, that would be incredibly helpful.

Thank you!

Howard

Thanks Garwin.

Unless I hear otherwise from y'all, I plan to focus on s-r I&S until the draft is complete and ready for review, then will address winter-run I&S comments, then American River comments and holes.
