Subject: Approach to restoration actions - EnvB or...
Attachments: approach to restoration-monitoring in EnvB vs. Effects vs. landS.docx

Hi all,

I passed along an earlier version of this document, see attached for **newest** version (even if I sent it to you like yesterday).

I talked through this with Rosalie and another colleague (Nancy Munn), and we came to an agreed approach. I'd like to talk with you all if helpful, or some of you so that we can all be on the same page!

Adaptive management actions and approach may be related/connected...?
