Subject: Re: Archive I&S Sections

Hi Susan,

I archived the older versions for GS and SH but left the 'to reviewers' versions and the 'clear do not change' versions. Steelhead I&S has 2 clear versions (1 saved yesterday, 1 saved today) so there are 3 steelhead I&S sections. Also, to Garwin's previous email, the steelhead I&S he reviewed also included Jeff Stuart's review/comments.

Garwin,

Which version should we be working on now? I'm planning on tackling some comments tomorrow

Cheers,

Joe

Hi Susan,

There was only one version of the I&S for w-r and one for s-r in the main folder - I've been archiving along the way.

latest w-r: 2.8 Integration and Synthesis ELLROTT WR V2.rd bje

latest s-r: 2.8 Integration and Synthesis ELLROTT SR V1.srb

Hey Garwin,

I assume you created the "..to reviewers" versions. Can I archive those?

Thanks,
Brian

Hi Joe and Brian!

If you have a few minutes, can you please go into the I&S folder and archive all older versions of your sections. There is an "Archive" folder that contains many old versions and files that are no longer needed. It would be great if we could move everything that isn't being used or the most current out of the way to avoid version control issues and confusion.

Thanks so much!
