Thanks, Naseem. Very helpful to clarify how we address those actions from Table 4-6.

Attached are my track changes. Edits hopefully to clarify. Comments largely based on my experience with the 2009 BiOp and implementation of it with regard to additional monitoring efforts coming on line.

Hi all,

Please take a look at my approach, and let's chat if needed!

Some of us talked through this during ROC-pizza hour, and others at other times.

How to handle table 4-6 and appendix C?! (see attached for EnvB write-up and Effects write-up)
