Subject: Re: I&S sections ready to distribute to Reclamation?

This is an ambitious ask but it may be useful for Brian to do a redline review of SH (and maybe GS) I&S before it goes to BOR. There are a few places where someone should check that steelhead recovery and RPAs are correctly described.

Hi Garwin,

SH and and GS I&S are ready for your review. The division leads still need to review their portions of the I&S tables and a few references needs to be update in endnote for SH but that's it.

Joe and Brian,

I just sent Howard the WR I&S section to distribute to Reclamation first thing in the morning. Next up are SR, steelhead, and GS I&S sections.

Joe--I think I saw an e-mail that said steelhead and GS are ready for my review (and therefore, clean-up and review), correct?

Brian--What's your ETA to complete the SR I&E section?

If at all possible, I'd like them by 4 p.m. tomorrow so I can clean them up tomorrow night and have them ready for distribution first thing on Thursday morning.

Subject: Winter-run I&S section ready to distribute to Reclamation

To: Howard Brown <Howard.Brown@noaa.gov>, Brian Ellrott <Brian.Ellrott@noaa.gov>

Cc: Cathy Marcinkevage <cathy.marcinkevage@noaa.gov>, Susan Boring <susan_boring@fws.gov>

Howard:

-- Attached is the clean version of the winter-run I&S section that is ready to distribute to Reclamation.
-- I deleted the "I&S tables" at the end of the species and critical habitat sections, and associated text references to those tables.

Brian--Note the following:

-- "uncertainty" still shows up in some of the table cells. We need to make sure the division effects tables incorporate assumptions, then delete "uncertainty"
-- some of the table cells have "?" that should be deleted.
-- Is the section (that you sent) ready for Maria and Rosalie's 2nd review (and clearance)?
-- You have placeholder comments in the section you sent me for things like Jeff' review of specific text.
-- I added page numbers
