I need to do add the J/Adverse mod tables back in to winter-run before it can go to Maria and Rosalie for review. I'm confident all comments (Rosalie's, Maria's, yours) in the text were at least attempted to be addressed, slightly less certain about the effects tables as I've relied on the division leads to own those. And I'll do a quick cross-walk of Maria's comments to make sure.

Spring-run will be ready later today.

Upon my final review and clean up for distribution to Reclamation, are all of them ready to send back to Rosalie for review and clearance (and Maria for winter-run)? Maria also wanted confirmation (from me) that her comments in the WR I&S section were addressed in the others. Confirm?
