Subject: Re: I&S help
Attachments: STEELHEAD Core 1 2 table.docx

Hi Joe,

I added the new table to the SH V6 master doc. In case the formatting gets funky from track changes, the table is also attached in a separate doc.

All,

I'm mostly finished responding to Maria's and Rosalie's comments on the steelhead I&S- 2.8 Integration and Synthesis SH V6 MASTER

Cathy was going to respond to Rosalie's comments on the Shasta Division in the table (uncertain and NA/none components)

Barb was going to insert text on San Joaquin R critical habitat

I didn't address Maria's comment on page 8- inserting table on steelhead hatchery production. We have a table on hatchery and natural adult returns for the DPS but nothing on hatchery release numbers. Maybe there's something available to cut and paste from the Delta/baseline/status otherwise we may need to do this at a later date.

I still need to generate a complete table (Table 2.8.5-3) for core 1 and 2 populations per Maria's comment on Page 58. Maybe Kristin can do that while we're in the director's meeting.

Thanks

Joe

Great, I we may need a little help on some of Maria's comments to the Stan/Eastside Division and critical habitat discussion in the Steelhead I&S. I'm going through Barb's latest draft and responding to Maria's comments. If there's anything left I'll email Kristin.

Thanks

Brian, Joe, and Naseem,

Kristin has some time today so can help with your respective I&S sections.
