Subject: RE: daily loss and/or loss densities for WR, all Chinook, steelhead?
Attachments: Daily Salmonid Loss.xlsx

Barb,

Attached is the data you've requested. I don't have the 2018 numbers for chinook and don't have time to grab them before this plan lands.

Let me know if you have any questions.

-Mike

Hey Mike,

You've been working much more closely with this lately. Can you give Barb a hand?

Thanks,

Jason

(Jason -- know you don't work for me, but thinking you might have it from your work on the loss tool. If I should route this request through Jennifer Pierre or someone else, let me know!!!!!!).

Do any of you have a data-friendly summary of combined (CVP & SWP) daily loss or loss-densities (for Jan-March, 2010-2018) **that you are able to share with me today?** Ideally for all Chinook races and steelhead. Or able to hold my hand through the correct query from the salvage database (not sure I will correctly combine channel velocity etc and exclude all non-relevant study/other fish)?

I have been asked to summary If needed, I can do some of this with Geir's tables. Is this on sacPAS now in an exportable way?

Thanks,
Barb
