**Subject:** OMR action modeling assumptions in PA  
**Attachments:** ba-appendix-d-modeling\_p. 36-37.pdf

Ken, Not sure if you were on the Delta call (I walked in a bit late and was zoned out when Katrina overviewed the phone folks for me...), but we did cover OMR storm flex. Attached is the excerpt we were pointed to with the summary of modeling assumptions (PDF page 36-37 of Appendix D, in Attachment 2-1). In our discussion Reclamation confirmed that while that was an assumption made for modeling purposes, Reclamation did not consider that modeling assumption to limit their potential actions under the OMR storm flex PA component.

Give me a call if you have questions.
