Subject: Re: Keep calm and ROC on LTO--Status of the species section

Okay, I'll accept as I go and make sure there isn't anything funky.

Um.....lemme see....

Looks to me like accepting is fine. For the CWF versions, we went to press with a clean copy of accepted edits.

At some point of course a hard read will be needed to double check figure numbers and call outs, which seem to be some of the edits. But otherwise they seem like simple consistency copy edits, at least from my quick look!

Thanks Cathy. Should I accept old track changes before I get started or leave them in?

Kristen --

Here's the updated 2017 SOS sections, which reflect Sean Luis' work to update primarily as part of the CWF effort:

M:\Status of the Species\2017 Final SOS

If you'd like to see what's in the CWF BiOp as Word files of those specific sections, you can look here:

M:\CWF\FINAL BiOp\Archive\2.2 BOCWF_2.2_SpeciesStatus_Final.docx

M:\CWF\FINAL BiOp\Archive\Appendix A - Rangewide Status of the Species_FinalDraft_5_29_2017_9am.docx

Hope this helps. Erin actually guided Sean in revising and updating these, so she could be a resource if you need one.

Thanks!
Cathy

Got it. I'll keep an eye out for the Word version from Cathy, and will let you know if I have any questions.

Kristin,

The core of the core team is scrambling on so many fronts associated with the ROC on LTO, but we want to get started on some sections that are not contingent on the proposed action. So, we have you slated to work on and update the status of the species section (with assistance from Brittany).

Cathy will be sending you a Word version of the status section from the CWF BiOp, which will need some updating from the last 18 or so months. The action area is not really relevant for the status section, but as you know, it's pretty big, and without the BA to look at, it'll likely be the same, or similar, to the action area in the 2009 BiOp.

If you have any questions, we're available via Google chat. Howard's scrambling on so many fronts, and Cathy and I are in the ongoing interview marathon through the rest of the week.

Thanks!
