**Subject:** Re: Keep calm and ROC on LTO--Status of the species section

Hi Brittany,

I haven't forgotten about you. I've just gone through and checked/accepted track changes in the SOS document. I may ask you for some help fact checking and getting any mention of fish data up to date. I am off tomorrow and Friday, so will resume next week. I hope you have a Happy Thanksgiving!

Kristin

Kristin,

Once you get the documents, let me know what I can do to help.

Got it. I'll keep an eye out for the Word version from Cathy, and will let you know if I have any questions.

Kristin,

The core of the core team is scrambling on so many fronts associated with the ROC on LTO, but we want to get started on some sections that are not contingent on the proposed action. So, we have you slated to work on and update the status of the species section (with assistance from Brittany).

Cathy will be sending you a Word version of the status section from the CWF BiOp, which will need some updating from the last 18 or so months. The action area is not really relevant for the status section, but as you know, it's pretty big, and without the BA to look at, it'll likely be the same, or similar, to the action area in the 2009 BiOp.

If you have any questions, we're available via Google chat. Howard's scrambling on so many fronts, and Cathy and I are in the ongoing interview marathon through the rest of the week.

Thanks!

-Garwin-
