Subject: A (short) reprieve!

I got the okay to finish my Stan effects COB Monday 4/1. Whew!

Sounds like you are busy working on the Stan DO section and the Delta conservation measures you adopted on Monday; was told to let you do your thing tomorrow but that I could potentially hit you up for some time on Monday to help with some Stan I&S tables (or, I'm thinking, maybe helping to beef up my effects with some of the relevant Stan citations I dumped on the google drive).

I'll check in on Monday.
