**Attachments:** ATT00001.html; 2.5 and 2.6 Trinity-Clear Creek Effects V6--to reviewers-do not change-rd\_kmb\_slg 5.10.19.docx

Rosalie,

Attached is a revised, track changes version of the Clear Creek effects section, per your request to review a revised version.

I'm not sure how much time you have before calling it a day and week, but the Clear Creek team made a concerted effort to address your comments in the effects section. This is a lower priority than working through the I&S sections that you have in front of you, but if you have time (or need an I&S section review break), please review the attached. If not, we'll catch up in the latter part of next week.

BTW, I'm in a meeting through the rest of the day, so have not had a chance to review the attached, but I want to get this to you sooner than later.

Thanks.

Garwin, see attached. (also saved on the R drive)

Rosalie's comments are addressed. I incorporated some of Kristen's too but she would like to continue her review to help with some of the concluding statements that I can incorporate. There are track changes for you to review and accept, but I know you don't have time. Can we ask Rosalie to only look at what she commented on?

Just discussing this Garwin, Rosalie's comments are addressed. Kristin is sending me her edits very shortly and I will finalize.

I'm checking the status of incorporating Rosalie's and other comments, and especially the effects table. I'm in a meeting through 5:30 p.m. and need to concentrate, so need to limit my back and forth. I'm hoping we're close to having comments addressed in track changes that I can send back to Rosalie soon for her final review and clearance.
