Will do. I will mark comments as done for references I have and will make a list. There are some track changes still in the doc and comments from Erin. Should I accept track changes if they look good or do you want to review them first? I'll try to address Erin's comments while I'm at it.

It's all yours, Kristin. Please cc' me on any refs you send to Susan (or add a comment to the doc) so I know which ones you've covered.

Thank you, now it's open. Barb, let me know if you wanted to keep it open, I can look at it later too.

Thanks Barb. I just tried to open the document to see if I have some of the missing references but it says it is locked for editing. Susan, do you have it open?

I can look through these later today and send the ones I have; Kristin I'll ping you if there is anything in the DO section that I don't have.

Hi!

I just finished going through the above section. There are quite a few references which are not currently in the CVO Reference Library. I made comments where I had questions or need to have it added.

Thanks.  
Susan
