Subject: Re: SOS

Good Morning Naseem,

I've created a new version of the SOS on the server "2-2-Status-of-Species-and-CH_Draft_Distribute to DOI" and have added the header, deleted Rosalie's comments, and added a "draft" watermark. I think this is all that needs to be done. Should we send it to Howard?

Naseem and Kristin,

Can you work together to get the SOS section ready to share by noon Friday. I think it just needs to be cleaned of comments and track changes, given a disclosure header (see the shasta or delta versions that we shared) and given a DRAFT water mark. Also, please name the version that we will share similar to other shareable versions (see Environmental Baseline of East Side version name convention). Thank you!
Howard
