Subject: Re: ROC on EFH

Hi Naseem,

I finished reviewing the EFH section. I saved my track changes in the "kmb" version, and saved a clean "V4 MASTER" version. I'm not sure I added the correct Pacific Coast Salmon (PFMC) reference (see the 2016b) reference, but did not find any other more recent Pacific Coast Salmon reference. Other than that, I'm pretty confident I correctly addressed other comments.

I'm off for the day. Hope you have a good night.
Kristin

Hi Kristin,

We had not identified a lead for the EFH consultation yet - and are hoping this is something you could tackle!

Good news, is the structure is already in place - however the text is maybe a mash-up of 2009OCAP/CWF/BA...

I went through to get the structure in place (headings), and added any boilerplate template language that wasn't in there.

I also noted where FMPs were cited they needed to be updated.

Let's touch base on this!
