Subject: Re: Finished with my quick review of ITS

Great, I'll start working on this, only planning on spending an hour or so

Okay Joe, it's all yours. I feel like this was a rushed review and there is a long way to go, but at least we can compile our thoughts, and hopefully discuss later. I may be off track with the surrogate language, but threw some in there to get started.

Thanks Sarah, I will add my initials to this version. I agree we should all have our comments in one document.

Not sure if you want to just to add on to this version and add your initials, then we all know we looked at it once. Or rename it V3 but will best to have comments all in one place.

I have a few comments in there that we maybe should discuss. I didn't want to add or change to much depending on what the outcome is.
