Subject: Re: Delta References Update

**Attachments:** EPA 2003.pdf

Hi Norma,

Here is the missing reference (that is referenced 4 times) in the East Side Effects Section located at: R:\Draft BiOp\2\_ESA\2.5-2.6 Effects of the Action\East Side Division
"2.5 and 2.6 East Side Effects V15 MASTER\_track changes on top of V14 clean-srb"

Thanks, Kristin

In the Delta section the "Corps" reference should have been deleted. I will make this change when the document is available. I will also track down USFWS references and will send to Norma tomorrow morning.

The East Side effects section is just missing one reference. I have this pdf and will send to Norma now.

Thanks, Kristin

Susan,

Just went through and cleaned up the references, and found almost all of the "missing" endnote library PDFs. You'll see the responses in the comments after your comment bubble. Mostly obscure grey literature in Kristin's sections (Sac DWSC food study - Corps and USFWS reports, and some other items. I have clarified which Perry papers I am referring to in response to your comments. Also found some other issues with references having a wrong date. I will be sending Norma an email with the additional PDFs that were missing, but now found! I am out of the master now, so you can go look in the Delta section for my responses.

Cheers,

Jeff

Hi All -

Just a heads up - I got a chance to get in the document today and got most of it done. I still have to update a few in the Figure and Tables sections, sections prior have all been inserted or notes made on missing ones. I know Jeff and Norma have talked about some of the Perry and the Romine references, but the library does not seem to be updated, or the citations weren't clear to me. I made notes in all of those instances.

First thing in the morning, I'll go back in to finish up the Tables and Figures.

saved as: 2.5 and 2.6 Delta Effects V15 MASTER srb

Thanks. Susan
