Subject: ITS review - PLEASE respond to comments/edits!

Hi all,

Garwin provided a review of the take tables (and text before the table).

There are comments/edits for all!

He also stated that it looked like a lot of time and effort went into this saying "major props to all"

How about the first person to click on it and it opens for you (and doesn't say someone already has it open) - it is YOURS FIRST!?

then **respond to this email when you are done for someone else to start.**

UNLESS: someone has a specific time they can work on it - please let us know.

You are welcome/encouraged to take a look at comments/edits to start thinking about changes (or even working on them), to then transfer to the MASTER file when it is available.

We are expected to have this "buttoned up" by Monday morn!

??
