Subject: Re: ROC on LTO BA Sufficiency: CCF Predation Management

Given Jeff's comment, is the call on, or postponed?

Thank you Chris. I probably won't have time to look at these before this afternoon's meeting. Do you want to reschedule for later this week or do you think it would be productive to discuss/ verbally summarize these documents this afternoon? Look forward to your response.

Jeff

Subject: Study Summaries for NMF

Chris,

Attached are several study summaries requested by NMFS earlier this week. Also included are some additional materials for each study as additional background information.

Clifton Court Forebay Predator Reduction Electrofishing Study (PRES)

Clifton Court Forebay Predatory Fish Relocation Study (PFRS)

SWP Operational Changes

We are working on one more summary for the Skinner Evaluations and Improvements Study. We will provide that summary as soon as it is available and hope to send it out prior to the meeting scheduled for Monday. As I understand you are coordinating directly with Tanya for the Aquatic Weed Control writeup. Please let me know if you have any questions or need any additional information.
