Hey All,

Finally, this 5 year effort is done. Attached is the final SEP report. The appendices are uploaded to the google drive.

The methods developed for the SEP are being used to develop the biological goals for the Phase 1, though disappointingly at a lower level.

Next week, I'll finalize the peer review response spreadsheet. I think Rene said he will be able to post the report on TUs website. As well, I looking to post it on the Department's drive.

I hope all is well with you,  
Stephen
