Subject: SWFSC Staff Supporting ROC on LTO

Rachel and Eric --

We are preparing for a potential furlough, and have been asked what SWFSC staff would be tapped to support the CCVO in the ROC on LTO. This includes the LCM work, temperature and egg mortality work, and the other items we listed [here](#). Item 7 is to me the broadest and most uncertain given that we don't yet know exactly what analyses we will do and therefore you don't know who you would tap.

I started a list. How would you revise to support us in the event there is a furlough and we get clearance to be called back to work on this?

Steve Lindley
Eric Danner
Rachel Johnson
Miles Daniels
Nate Mantua (for Item 4)
Andrew Hein

Thanks -
Cathy
