Done. FYI- the updated SOS doc is located on the google drive at ROC on LTO / BiOp / SOS.

Kristin/Brittany,

Please send the SOS section (or provide the link to it on the CVP  
ROCON drive) to Dan Lawson (SRKW) and Seth Naman (SONCC coho salmon  
and eulachon) to put together SOS sections for their respective  
species following our format. I think eulachon is NLAA, so we may not  
need that one.

Brian is working on the environmental baseline (EB)section so needs  
the SOS section. He will send follow-up e-mails to them based on his  
EB needs.

Thanks.
