Folks,

Attached is the current annotated agenda for us to discuss at 1:30 today. It is a bit color coded so that I can make changes and updates following our conversation or if additional details come to me during the day.

Here is the key:

Blue text: NMFS talking points

Red: Areas where I have questions for us to address at 1:30

Green: Mainly FWS topics or they are developing text

Also attached are some white papers for us to distribute for the meeting. They include:

1. Adaptive Management
2. COA and Shortage Policy

3. I:E ratio alternatives
4. Fish Passage and Shasta Operational Flexibility

Talk to you all at 1:30  
Howard
