**Subject:** Re: ROC on LTO schedule, combined

Susan,

Cathy bent my ear about the inconsistencies between the schedule and the table of contents. Please do your magic to make them consistent, specifically, move, add, and/or edit the rows in the attached to make the section numbering and titles the same as the outline. Subheadings, e.g., effects section, not necessary.

If you can do this before the team meeting, awesome, but if not, we'll project a version anyway just to show the team the tracking table.

Thanks.

Howard--Attached is the combined scheduled, as discussed yesterday. This will be the combined, almost one stop shop. Some details won't be there, like co-leads, etc., but those are details we can flip to the other spreadsheet to find. I did what I could to combine all, checked some to make sure they made sense, but could use your eyes for more of that.

Cathy and Susan--FYI on status.

I plan on sending to Barb to have it projected during the 11:30 a.m. ROC on LTO team meeting so folks know this is in progress and to remind everyone of the status to date.

Now, looking at it, Barb is the coordinator for most/all sections, and given her current responsibilities, it doesn't make sense, but then again, as lead biologist, she does need to review and informally clear all.
