Thanks Carl. This PPT version is a little ornery to work with!

At least you can work with the PPT. I know we always had trouble with getting a good version. It may have been ICF, I'll check with them.

Thanks Carl. Evan said that didn't create it, so apparently the creator of this has done a good job of keeping a low profile!

Howard here is what I have, check with Evan I think he may have originally made it based on Maria's sketch. PPT for some reason is incomplete but can be manipulated. Carl

Carl,

Would you happen to have an editable version of the CWF AMF Figure 4-1 or know who created it that I might contact? I am hoping to use that to tailor something more specific to ROC as a discussion tool. Any help tracking this down would be very much appreciated.

Thank you!

Howard
