Subject: NMFS ROC Info Requests

Katrina --

Can you provide an excel file similar to the "PA_5Q_Results" that has daily temperatures at Hamilton City/GCID? We are interested in seeing % of days by tier exceeding 22°C (71.5°F) and 17.5°C (63.5°F). Woodson Bridge could also be an alternative to Hamilton City. Does the model output data at one of those locations?

Also, can you provide an update on my request from Thursday, 3/21, 2:50 pm

Is someone available at ICF or Reclamation who could gather and process temperature data to update the Figures 6-26, 6-28, and 6-32 from the attached pages from the 2009 NMFS BiOp? That would be very helpful for us.

Thanks --
Cathy
