**Cc:** Howard Brown; Cathy Marcinkevage  
**Subject:** ROC on LTO Status of the Species (SOS) section

Brittany/Page--Naseem has reviewed the abbreviated SOS section and provided track changes. I went through it and cleaned it up, leaving her comments that should be addressed, in version 3 at S:\Draft BiOp\2\_ESA\2.2 Status of species and CH. If you have time today, please take a look at the comments and incorporate. We'd like to send a clean version of this section out to Reclamation sometime tomorrow. If you want to look at all of Naseem's track changes, it is at S:\Draft BiOp\2\_ESA\2.2 Status of species and CH\Archive\2-2-Status-of-Species-and-CH-V2 SRB - noa.

Page--The main SOS folder has the file CCVO Rangewide Status of the Species - Full Length Versions\_3.25.2019\_editsPV. I'm not sure how that fits in with the most recent long version in the folder S:\Draft BiOp\7\_Appendices\Appendix B--Status of the species.
