Here's the draft that I've "cleaned" to go to Rec.

If we want to wait until tomorrow to distribute, I could change "reference condition" to "base condition". The former is all over the document, so if that makes someone uncomfortable....it needs to change. There are a few small revisions in response to Rosalie that we can tackle later this week.

My plan is to PDF it whenever we are ready. But we need to get this all reviewed -- we're running into being very inefficient in review.
