**Subject:** Re: ROC LTO American River Division Effects Analysis

Thanks Brian. I think your plan is good. We'll work out the fixes to your sections.

Saved on drive, pen is down.

As I mentioned today:

- it is not 508 compliant
- updated figures from Reclamation need to be worked in, and associated text update
- some of the exceedance plots need to have the without action scenario removed, and the y-axis re-scaled appropriately.

Let me know if you want me to work on those things, otherwise I will start focusing on the integration and synthesis for winter- and spring-run.
