Thanks Russ. We are slammed this week working through comments we received on the delta smelt effects analysis, so we don't have time to dive in to this very much. Is is possible that Reclamation could send us bullets about what was changed between the April 3 version and this version? Nothing too detailed, just what was changed and page numbers if that's not too much trouble.

Good Morning Howard and Jana,

Please find attached the latest redline version of the ROC on LTO biological assessment.

Thanks, Russ
