Subject: Re: ROC effects tables for I&S section

Evan—thanks for providing your ETA.

All—Please complete your species and critical habitat effects tables by COB today, 4/3, and place them in the I&S subfolder.

Thanks.

All,

Thank you to those of you who have completed your effects (species and critical habitat) tables for the integration and synthesis section. If you're done, please make sure they are in the folder S:\Draft BiOp\2_ESA\2.8-2.9 Integration and Synthesis and Conclusion.

If you're not done, please make it your highest priority to finish them. If that means dropping other things that may be really high priorities, please make sure to discuss with Howard, Cathy, and/or me first, as we want to know what will be dropped or postponed. Also, if these tables are in the works, or if you haven't started, please reply with your ETA for completion. I'd like to establish a deadline of COB tomorrow for the task, but don't know where everyone's at with it.
