**Subject:** Re: CVP ROC Tasker

We just had a meeting with Barry on this, so Howard will also be making a couple of changes.

Thanks very much for pulling this together so quickly! I will review this afternoon and circle back with any edits.

Hannah,

Attached is a draft 3TM for the NOAA CVP Deep Dive. Also attached are 2 maps, a few white papers and 3TMS that lay out some important project and consultation details that we believe will inform the discussion on Friday. The file size on one of the white papers is quite large so I will send that separately.

Maria is in a week-long RLT meeting and we have discussed this 3TM but she is not able to clear it based on RLT demands. She is aware that I am sending this to you directly.

I am available to discuss at your convenience, but I do have some meetings on my calendar, most notable a 3:30-5 ROC director's meeting on Thursday.

Howard
