ROC on LTO - - April 4th. Directors discussion

Schedule discussion

April 15th - - Analytical approach, and any other easy pieces?

May 6 and/or May 10th - - Get together and hash through any issues

May 14 or 15th - - Leasderip hold in event we need to elevate

May 24th - - - internal regional meeting on ITS and terms and conditions

Water User meetings:

May 20 - - preview of NMFS effects analysis

Sometime soon after 20th - - need a meeting with NGOs

Get draft on 23rd

May 28th - - get comments back with both NMFS and FWS

Attys will talk - - is there a way to share earlier drafts?

First time shared with water districts is May 23

Adaptive management. - -make progress by April 15th

Fall X2 - AM plan that has a group using SDM - - salinity march SCD, flow augmentation up to 80 km, only analysis was in 2018 which was a BN year.

A defined block of water. A strong science based driver - - a threshold that we can cross, a biological threshold

80K planning number for suisun marsh action in BN years.

We are waiting for a detailed write up.
