Subject: Re: ROC on LTO Intro section

I looked through the WOA section of intro and offered 2-3 little edits.
I made one small edit to WIIN (just to use acronym)

the below new section sounds like a good one for one of you Supes!

-- 1.3.4 New section on non-discretionary allocations: Description and why it is considered part of PA
is this what they consider non-discretionary?

We got comments back from Rosalie on the introduction section, and I could use some help to address comments, as follows:

- 1.3.2 ESA Consultation on CVP and SWP Hatcheries: Is Nimbus Fish Hatchery production in or out? If Nimbus HGMP and HMP are part of the PA, how would we/would we analyze it?
- 1.3.4 New section on non-discretionary allocations: Description and why it is considered part of PA
- 1.3.7 Without Action Scenario: Look it over, make sure it's tight
- 1.3.11 WIIN Act: Title was a placeholder, new description. I thought I'd just address sharing the draft BiOp, rather than all of the requirements, like sharing a timeline, quarterly meetings, etc.
- 1.4, Consultation History:
 - ++ Table 1.4-1: I cited Reclamation's BA for the table, so I don't feel the need to populate all of the cells, per Rosalie's comment. Thoughts?
 - ++ end: Brief summary of the major changes to the revised BA. Barb would give me a big ole' long list. I'm thinking about scrolling through the BA and looking for places where there is a lot of red, like aquatic weed mgmt in CCF. Thoughts?
