Howard.

Attached is the latest and greatest WR I&S section that is ready for you to send to Reclamation. I used the same file name as my e-mail from last night, so you can just delete last night's e-mail. I will save this version on the ROCON drive for tracking.

Brian--Note the following:
-- "uncertainty" still shows up in some of the table cells. We need to make sure the division effects tables incorporate assumptions, then delete "uncertainty"
-- some of the table cells have "?" that should be deleted.
-- Is the section (that you sent) ready for Maria and Rosalie's 2nd review (and clearance)?
-- You have placeholder comments in the section you sent me for things like Jeff' review of specific text.

-- I added page numbers
